

REMARKS

This Preliminary Amendment makes clarifying amendments to the specification and drawings. No subject matter has been surrendered and no new subject matter has been added. The amendments are for clarification purposes and are not for substantial or statutory reasons related to patentability.

The amendments to the specification correct inadvertent or typographical errors.

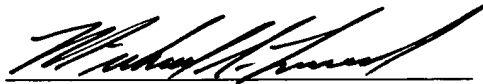

The amendment to Fig. 34 changes the reference number for the pull tab from an incorrect reference number 19 to the correct reference number 3. The amendments to Figs. 51, 52 and 53 add the legend PRIOR ART to those figures. The two enclosed Replacement Sheets of drawings are formal drawings.

Respectfully submitted,

EVEREST INTELLECTUAL PROPERTY LAW GROUP
